

# The Shared Atomic Pointer

the lecture series C++20

[github.com/tomsnode](https://github.com/tomsnode)

const <?>

how your .cpp code needing the required  
steps of inlining references causes the  
const operator to time out

So <?>

  
JAEGER-LECOULTRE  
ATMOS

the time any one <??>

We could..

Q & A

..why bother
